

FotoKem New York

FotoKem has expanded its operation to New York to best serve the local and immediate needs of new and existing clientele. Located in the heart of Midtown Manhattan, FotoKem New York is central to major studio locations, advertising agencies, record labels and entertainment companies. The facility provides quick-turn service for all tape and file-based projects needing duplication, encoding, transcoding and file-based distribution. FotoKem has 50 years of post production experience and resource to service and guide a variety of global production requirements.
